

OP - Kiss of Death

Source: [Crunchyroll](#)

Come to me, as our inhibitions crumble
Please don't fear me
The flightless bird dreams of a sky
Whose colors blend into
the wrong shade of red

I tried to block out the banging on my door
Are you one banging on it?
Or is it someone else?

Will your lips taste the kiss of death?
Darling, our destiny
courses through our veins

A change is sweeping across
the world... Is it love?

I want us to come together
more than anyone, darling

Please don't fear me
Kiss me now
