[00:19] Default

You're beautiful...

[00:21] Default

I'll take you to the flower garden.

[00:38] Default

Remo.

[00:41] Default

Grandma!

SIGN Dr. Daniel Dawson develops the Violet Operating System, "ViOS."

SIGN Dr. Diana Dawson develops an environmental control program, "mother."

SIGN To an ideal Earth...

SIGN Japan

[02:13] Default

Dual!

[02:24] Default

I did it! I won first prize!

I can't believe it!

[02:32] Default

Good for you.

[02:33] Default

Now I can go to London in the spring!

And maybe even study there!

[02:38] Default

Your dream might come true.

[02:40] Default

Yeah! It has always been my dream

[02:43] Default

to travel the world and play piano for everyone!

[02:48] Default

You've always supported me.

[02:51] Default

Thank you so much.

[02:53] Default

I couldn't have made it this far without you.

[02:58] Default

Sumire...

[03:02] Default

I'm sorry.

[03:03] Default

Huh?

[03:05] Default

This backup data

[03:07] Default

is infected by a virus.

[03:11] Default

It can't be restored.

[03:15] Default

I'm not the Dual that you know.

[03:18] Default

This is backup data of 21st-century Japan.

[03:22] Default

A virtual world within the Box of Wisdom.

[03:25] Default

Dual, what's wrong?

[03:30] Default

We're out of time.

[03:39] Default

What?!

[03:41] Default

This world has been completely infected by a virus.

[03:47] Default

And so have you, Sumire.

[03:55] Default

No! What's going on?!

[03:59] Default

Deleting data!

[04:17] Default

What is this?

[04:21] Default

Is this a dream?

[04:24] Default

Am I dreaming?

[04:26] Default

This is not a dream.

[04:28] Default

The world you were living in,

however, was a dream.

[04:32] Default

A dream...

[04:33] Default

It was all a dream.

You and I are both just data.

[04:38] Default

What? But you're Dual.

We've always been together!

[04:43] Default

From your perspective, yes.

[04:45] Default

But from mine, this world was
unpacked just a while ago.

[04:50] Default

And you and your memories are
nothing but recently reorganized data.

[04:55] Default

Talk to me in a language I can understand!

[04:58] Default

Infected data

[05:01] Default

must be deleted.

SIGN Garakowa - Restore the World -

[05:50] Default

What are you playing at?

[05:54] Default

What do you mean?

[05:55] Default

What do I mean?

[05:56] Default

Don't play dumb!

[05:58] Default

Snap out of it!

[06:00] Default

That world was mine! It was my turn!

[06:02] Default

I guess.

[06:03] Default

You guess?

[06:04] Default

There you go again! Don't break the rules!

[06:08] Default

I've been waiting forever.

[06:09] Default

Didn't you see?

[06:10] Default

See what?!

[06:12] Default

I felt like I was meant
to delete that world.

[06:16] Default

Huh?

[06:17] Default

Sumire believed I was her best friend.

[06:21] Default

So it had to be me.

[06:23] Default

What, you felt some kind of
responsibility toward her?

[06:30] Default

Sure, you were supposed to be
her friend in that world.

[06:36] Default

But she was just a scrap of human data
in a virtual world program.

[06:40] Default

A world that was only just unpacked, too.

[06:45] Default

Are you going to be moody
after every deletion?

[06:48] Default

Well, hurry up and
delete that data, too.

[06:55] Default

It's been happening a lot
since the upgrade...

[06:58] Default

Us getting integrated into unpacked worlds,

[07:02] Default

as a friend or family.

[07:05] Default

It never used to happen before.

[07:08] Default

Humans do the most annoying things.

[07:11] Default

She said her dream was
to become a pianist.

[07:15] Default

Her dream, huh?

[07:17] Default

Not that I understand.

[07:22] Default

You've been acting strange lately.

[07:25] Default

You're getting attached to data
that's meant to be deleted.

[07:28] Default

We're just programs.

[07:30] Default

All we need to do is get rid of viruses
according to algorithms.

[07:34] Default

Man, this is getting on my nerves!

[07:36] Default

This is happening because
we're both anti-virus software.

[07:42] Default

Why did they install both of us?

[07:47] Default

Maybe they're trying to see
which one is superior?

[07:50] Default

In that case, I'd win. Hands down.

[07:54] Default

Aren't you talkative.

[07:55] Default

Maybe you're infected.

[07:57] Default

Maybe *you* have a bug in your system!

[08:08] Default

Dorothy!

[08:08] Default

Shut up!

[08:09] Default

Huh?

[08:10] Default

Who's that?

[08:15] Default

Hey! Don't run off on your own again!

[08:20] Default

Deleting data.

[08:21] Default

Bring it on!

[08:34] Default

There are so many viruses lately!

[08:37] Default

Hear me, you creeps?

[08:39] Default

I miss the days when we
just fixed bugs in the system.

[08:55] Default

Almost done.

[09:05] Default

Get out of my way!

[09:07] Default

You get out!

[09:10] Default

Compress.

[09:11] Default

Shut up!

[09:22] Default

Delete.

[09:28] Default

That was a tough one.

[09:31] Default

But I could have handled it myself.

[09:34] Default

We're seeing more viruses lately.

[09:37] Default

You're right. It's weird.

[09:40] Default

Where are they coming from?

[09:47] Default

Hey, she doesn't seem to be infected.

[09:52] Default

No virus detected.

[09:55] Default

Could be a Trojan.

[09:58] Default

We should delete her, just in case.

[10:00] Default

We're not authorized
to delete this program.

[10:04] Default

Wait a second.

[10:05] Default

Don't tell me you're taking her with you!

[10:07] Default

Fixing defects is our job, too.

[10:11] Default

I know, but come on!

[10:18] Default

Hey!

[10:30] Default

Don't you think you're being mean, Dual?

[10:34] Default

How so?

[10:35] Default

I can't enter without your permission.

[10:38] Default

Go back to your own space.

I'll stay with her.

[10:42] Default

Are you crazy?

[10:44] Default

If she's a new breed of virus,
my area might get infected too!

[10:53] Default

What a pain!

[10:55] Default

If you weren't around,
I'd have this place all to myself...

[11:00] Default

Wh-What?!

[11:09] Default

Wh-What's happening?!

[11:24] Default

She fell asleep?

[11:32] Default

Who are you?

[11:37] Default

I'm Dual.

[11:39] Default

You were attacked by
a virus, weren't you?

[11:43] Default

What are you?

[11:45] Default

An anti-virus program like us?

[11:48] Default

You're a virus, right? Admit it.

[11:53] Default

We told you who we are.
You should do the same!

[11:58] Default

Remo...

[12:00] Default

Remo? Is that your name?

[12:04] Default

What kind of program are you?

[12:06] Default

Flower...

[12:08] Default

Flower?

[12:09] Default

I have to return to the flower garden...

[12:12] Default

Where? Is that some sort of backup data?

[12:16] Default

I...

[12:18] Default

I...

[12:19] Default

Why were you installed
in the Box of Wisdom?

[12:23] Default

What are you programmed to do?

[12:35] Default

This is weird.

[12:37] Default

She doesn't make any sense.
She's suspicious.

[12:40] Default

And dangerous.
We should delete her.

[12:44] Default

We can't delete data
that's not infected.

[12:47] Default

But we can quarantine her or something.

[12:51] Default

Programs don't have free will.

[12:53] Default

If we did whatever we wanted,
we'd be just like viruses.

[12:58] Default

I think she's just unstable right now.
She might recover on her own eventually.

[13:03] Default

I'm telling you, Dual.

[13:05] Default

If that girl is a virus,
we should delete her right away.

[13:08] Default

Or else we'll be in danger, too.

[13:10] Default

I know.

[13:21] Default

Level 1?

[13:23] Default

Right. This is Level 1.

[13:25] Default

Besides Dorothy and me,
you're the first to set foot in here.

[13:30] Default

The Box of Wisdom is
divided into three levels.

[13:33] Default

We found you in Level 2.

[13:35] Default

That's where all the
backup data is pooled.

[13:38] Default

Backup data?

[13:40] Default

Restorable data for various
time periods and places.

[13:45] Default

Dorothy and I are in charge of
monitoring the Box of Wisdom.

[13:49] Default

If we find any bugs or defects,
we fix them.

[13:52] Default

If a virus appears,
we compress and delete it.

[13:56] Default

We access data that hasn't been
unpacked and scan for viruses.

[14:11] Default

This is all backup data.

[14:14] Default

Virtual reproductions of
various eras and places.

[14:19] Default

What's this?

[14:21] Default

Don't be scared.

[14:23] Default

It's the remains of a virus we dealt with.

[14:26] Default

We compress it

[14:30] Default

and delete it.

[14:32] Default

So if I were a virus,
like Dorothy said...

[14:38] Default

You aren't a virus.

[14:43] Default

Do you want to see a virus scan?

[14:47] Default

You may remember something.

[15:08] Default

Whoa!

[15:09] Default

She's so cute! Is she a TV celebrity?

[15:13] Default

This is Level 3.

[15:15] Default

This world was born just this moment,

[15:19] Default

along with everyone in it.

[15:28] Default

Did you find something here?

[15:33] Default

Not really. I wonder why I got so excited.

[15:36] Default

Did you remember something?

[15:38] Default

No.

[15:40] Default

I'm sorry. I wasted your time...

[15:44] Default

That's okay.

[15:46] Default

I just felt like eating something.

[15:50] Default

This looks so yummy!

[15:53] Default

Yummy?

[16:03] Default

I guess a human would
find things delicious or cold.

[16:08] Default

Don't you?

[16:10] Default

Delicious, beautiful, fun, interesting.

[16:14] Default

I understand the concepts,
but I've never experienced them.

[16:18] Default

Anti-virus programs have no use
for such functions.

[16:22] Default

What about feelings,
like joy and sadness?

[16:28] Default

I don't know.

[16:30] Default

I think I've felt something close...

[16:33] Default

It must be human "emotion,"

[16:36] Default

but I have no way of knowing.

[16:40] Default

Maybe human data have emotions,

[16:43] Default

along with memories and dreams.

[16:47] Default

Dreams?

[16:49] Default

But they're all just part of the program.

[16:53] Default

You're amazing, Remo.

[16:55] Default

Can you taste things?

[16:59] Default

I get the feeling it's probably delicious.

[17:02] Default

Maybe you're human data.

[17:04] Default

I don't know.

[17:06] Default

Maybe just telling yourself something
is delicious makes it delicious.

[17:10] Default

It does seem delicious
if I tell myself it is...

[17:13] Default

Delicious, huh?

[17:16] Default

You guys know what
"delicious" tastes like?

[17:19] Default

You went and unpacked another one!

[17:21] Default

I told you it was my turn!

[17:23] Default

I wanted to show Remo.

[17:25] Default

You're so selfish.

[17:28] Default

It's fun.

[17:30] Default

So, did you figure out
what the flower garden is?

[17:33] Default

No.

[17:35] Default

I knew it.

[17:40] Default

Hurry up and remember!

[17:49] Default

These humans don't know
that their existence

[17:54] Default

is like a dream.

[17:56] Default

Who made the Box of Wisdom?

[17:59] Default

Why back up data of
different times and places?

[18:02] Default

And even the humans living there?

[18:05] Default

Who would do that, and for what purpose?

[18:07] Default

No idea. We just do our job
according to the program.

[18:13] Default

I'm glad this place wasn't infected.

[18:17] Default

What if it was?

[18:20] Default

I'd have to compress and delete all of it.

[18:26] Default

So, reality exists outside this Box?

[18:30] Default

Reality?

[18:31] Default

The real world, where humans live.

[18:35] Default

I guess.

[18:37] Default

We can't see it, though.

[18:39] Default

Do you want to talk to them?

[18:41] Default

To the humans who programmed us?

[18:43] Default

To humans?

[18:48] Default

I'd never even thought about it.

[18:50] Default

You have such an imagination.

[18:54] Default

Really?

[18:56] Default

Am I a weird program?

[19:11] Default

Remo.

[19:22] Default

I feel like cleaning!

[19:54] Default

Morning!

[19:56] Default

Pleasant dreams?

[19:58] Default

We don't dream.

[20:00] Default

We just go to sleep to upgrade.

[20:03] Default

I see.

[20:05] Default

When one of us upgrades,
the other one upgrades automatically.

[20:10] Default

Humans provide us with
upgrade programs.

[20:14] Default

Humans...

[20:16] Default

What's wrong?

[20:17] Default

N-Nothing. I just...

[20:21] Default

What are you doing?

[20:23] Default

Cooking!

[20:24] Default

I wanted to cook for you.

[20:29] Default

Dig in!

[20:34] Default

Why are we doing this?

[20:36] Default

Don't ask me.

[20:38] Default

I just got the urge to cook.

[20:42] Default

Where did you get the ingredients?

[20:44] Default

From the backup data.

[20:46] Default

Huh? Don't you start doing as you please, too!

[20:50] Default

Once I got started, it was so much fun!

[20:53] Default

She didn't bring back
any viruses, did she?

[20:57] Default

Nope, I guess not.

[20:59] Default

So? How is it?

[21:01] Default

We can't tell if it
tastes good or not.

[21:05] Default

I guess...

[21:07] Default

But if I tell myself it's delicious,
it feels like it is.

[21:10] Default

Really?

[21:11] ---

Yeah.

[21:12] Default

Yay! Dorothy, you try it, too.

[21:15] Default

I have no interest in human culture.

[21:18] ---

Come on!

[21:19] Default

I see you don't trust your own virus scan.

[21:21] Default

Huh? Are you kidding?

[21:29] Default

Well, I guess I could find this delicious
if I tell myself it is.

[21:32] Default

Good!

[21:34] Default

Is that really something
to be happy about?

[21:38] Default

I can wipe my own mouth!

[21:44] Default

You're good at juggling.

[21:45] Default

You brought these, too?

[21:47] Default

Yeah.

[21:48] Default

I like the data from this country.

[21:51] Default

Look! I can juggle three of them!

SIGN Happy New Year

[21:55] Default

Even I can do that much.

[22:11] Default

What's that tune?

[22:13] Default

Schubert's Lullaby.

[22:16] Default

You have some strange talents.

[22:20] Default

Are they strange?

[22:23] Default

At the very least, you're not an
anti-virus software like us.

[22:27] Default

When I'm with you,

[22:29] Default

I almost understand how delicious food tastes
or how beautiful music sounds.

[22:34] Default

That's probably because I find them
delicious and beautiful,

[22:39] Default

and those feelings get through to both of you.

[22:41] Default

"Both"?

[22:42] Default

Is that how it works?

[22:44] Default

Yeah. It means our hearts are in sync.

[22:51] Default

Is there a song you want to hear?

[22:54] Default

I told you. We don't understand music.

[22:58] Default

Do you know this song?

[23:10] Default

How can you play it?

[23:12] Default

I don't know.

[23:16] Default

My dream is to become a concert pianist and travel the world.

[23:21] Default

Music can transcend time and borders and bring people together, right?

[23:26] Default

I want to play music like that one day.

[23:30] Default

Piano has the power to do that.

[23:35] Default

That's all I remember.

[23:38] Default

Looks like my memory isn't that clear.

[23:41] Default

What's wrong, Dual?

[23:44] Default

Are you crying?

[23:46] Default

We never cry, because we don't need to.

[23:51] Default

Don't worry. It's not your fault.

[23:55] Default

Sorry. I'm fine.

[23:57] Default

Can you play it again?

[23:59] Default

But that's all I know.

[24:03] Default

That's fine.

[24:05] ---

If you say so.

[24:21] Default

I still think you're a fragment of human data from somewhere.

[24:25] Default

Human data?

[24:27] Default

Yeah. You must've come out of one of the backups stored here.

[24:35] Default

How else would you know
so much about human culture?

[24:40] Default

Yeah. That might be true.

[24:43] Default

Right?

[24:49] Default

You probably came from some
flower garden. I'm sure of it.

[24:54] Default

I'm so brilliant!

[24:59] Default

What's so funny?

[25:00] Default

Nothing.

[25:01] Default

It just hit me that
you're worried about me, too.

[25:06] Default

I'm not worried at all!

[25:08] Default

I just can't rest easy
unless I know who you are.

[25:11] Default

That's all.

[25:13] Default

It'll be a pain to check
every single backup here.

[25:18] Default

We can scan for viruses at the same time.

[25:20] Default

I guess...

[25:23] Default

But we don't want her to get lost again.

[25:27] Default

You're still holding on to that?

[25:30] Default

If we use this as a tag,
we can find Remo wherever she is.

[25:38] Default

I think it'd look better on you, Dual.

[25:42] Default

It's a keepsake of a girl named Sumire.

[25:45] Default

Sumire?

[25:47] Default

Human data that was
programmed as Dual's friend.

[25:51] Default

But she was infected,
so we had to delete her.

[26:04] Default

Thanks. I'll take good care of it.

[26:11] Default

What?

[26:12] Default

We're like three sisters.

[26:15] Default

You're one strange program.

[26:18] Default

Let's go!

[31:28] Default

Happy birthday, Dorothy!

[31:32] Default

Here's my present to you...

[31:35] Default

A hat!

[31:36] Default

I thought it would look good on you.

[31:39] Default

It's beautiful!

[31:40] Default

I got you some candy.

[31:42] Default

You love sweets, right?

[31:45] Default

I love them!

[31:47] Default

And this is from Mommy.

[31:49] Default

I think you'd look nice
in a dress like this now.

[31:52] Default

Mom made it herself.

She'd been working on it for ages.

[31:55] Default

We helped, too.

[31:57] Default

Thank you!

[31:59] Default

And this is from Daddy.

[32:01] ---

Oh, my!

[32:07] Default

A puppy!

[32:08] Default

How cute!

[32:10] Default

You've wanted one for a long time.

Take good care of him.

[32:13] Default

Thank you.

[32:15] Default

Okay, Dorothy.

[32:17] Default

They say that if you make a wish as you
blow out the candles, it'll come true.

[32:21] Default

What's your dream, Dorothy?

[32:24] Default

Well...

[32:26] Default

I want us to be together forever!

[32:35] Default

Dorothy...

[32:36] Default

That world was infected by a virus.

[32:40] Default

I had to delete it.

[32:43] Default

It was just programmed data,

[32:45] Default

but they believed that

I was part of their family.

[33:05] Default

Dorothy...

[33:06] Default

I'm fine.

[33:09] Default

That cake...

[33:11] Default

When I ate the one my mom made...

[33:15] Default

I was sure it was delicious.

[33:20] Default

I'm becoming just as weird as you guys.

[33:25] Default

I don't get it.

[33:28] Default

Why do we need backup data?

[33:30] Default

Only the humans who created
the Box of Wisdom know.

[33:35] Default

Where do viruses come from?
Why did they suddenly increase in number?

[33:39] Default

Does infected data have to be deleted?

[33:41] Default

Is there no other solution...

[33:44] Default

Our job is to do what
we're programmed to do.

[33:49] Default

There's too much I don't
understand in this world.

[33:53] Default

Why am I here in the first place?

[33:59] Default

But I still love this world.

[34:02] Default

That's why I've protected it all this while.

[34:05] Default

And I'll protect it forever.

[34:13] Default

Keep it down. You woke me up.

[34:17] Default

For some reason,
housework really calms me down.

[34:20] Default

You sure have it nice.
You don't have to upgrade.

[34:24] Default

It doesn't matter if you sleep or not.

[34:27] Default

Maybe you're just a support tool for us.

[34:31] Default

Maybe the flower garden isn't even real.

[34:35] Default

The flower garden...

[34:37] Default

I think it's something important...

[34:44] Default

A support tool, huh?

[34:46] Default

I hope that's true.

[34:49] Default

Why?

[34:50] Default

That means we can be together forever.

[34:56] Default

A medium-level virus alert.

[34:59] Default

Where are they all coming from?

[35:02] Default

Stay here, Remo.

[35:03] Default

Why? I want to come.

[35:05] Default

Don't bother. You'd just be in the way.

[35:07] Default

That's mean!

[35:24] Default

A new strain?

[35:27] Default

I've never seen this type before.

[35:35] Default

Still a piece of cake, though!

[35:40] Default

Compress!

[35:50] Default

And delete.

[35:52] Default

I wonder what happens
to deleted viruses.

[35:56] Default

They just disappear.

[35:59] Default

Why do you care?

[36:01] Default

I remembered what Remo said.

[36:07] Default

I think you're going crazy.

[36:11] Default

Another one?

[36:18] Default

It's huge!

[36:23] Default

It's all yours!

[36:30] Default

What are you doing?!

[36:33] Default

Give it back...

[36:35] Default

Sumire!

[36:37] Default

Please give it back.

[36:42] Default

Give me back my dream.

[36:45] Default

Dream?

[36:48] Default

Sumire's dream?

[36:57] Default

What're you spacing out for?!

[37:03] Default

You and your stupid functions...

[37:07] Default

Dual!

[37:10] Default

Dorothy...

[37:12] Default

If I get infected, delete me...

[37:16] Default

Take care of Remo.

[37:18] Default

Stop talking nonsense!

[37:22] Default

I'm coming to save you.

[37:24] Default

Dorothy! Dual!

[37:27] Default

You idiot! Why did you follow us?

[37:30] Default

I just...

[37:33] Default

What?

[37:39] Default

Remo!

[37:58] Default

Remo... Remo...

[38:16] Default

Where's Remo?

[38:23] Default

There!

[38:29] Default

She's not infected.

[38:31] Default

Let me check you, too.

[38:34] Default

You're clean.

[38:36] Default

What does this mean?

[38:38] Default

I thought the virus
infiltrated both of you...

[38:41] Default

What happened to the virus?

[38:44] Default

I don't know.

[38:47] Default

There was this bright light...

[38:49] Default

And now there's no sign of the virus.

[39:03] Default

Maybe she's infected after all.

[39:05] Default

There's no viral reaction.

[39:08] Default

Maybe her memory's coming back.

[39:11] Default

Didn't you say "Sumire" earlier?

[39:14] Default

I saw Sumire inside the virus.

[39:17] Default

But you deleted her.

[39:22] Default

Deleted viruses are destroyed.

[39:25] Default

That's what we always thought.

[39:27] Default

Right. They cease to exist
in the Box of Wisdom.

[39:31] Default

That's the end of it.

[39:33] Default

But what if it's not?

[39:36] Default

I'm starting to think of things
I never thought of before.

[39:44] Default

When the virus engulfed me...

[39:47] Default

What?

[39:48] Default

You tried to help me.

[39:51] Default

Thank you.

[39:54] Default

Whatever.

[40:00] Default

Connecting to host computer.

Remote access.

[40:04] Default

Remo!

[40:05] Default

Measuring virtual coordinates
of the Box of Wisdom.

[40:10] Default

Separating protocol. Initiating search.

[40:14] Default

Remo!

[40:16] Default

Remo, who are you?

[40:19] Default

Why were you installed
in the Box of Wisdom?

[40:22] Default

To search and retrieve data.

[40:27] Default

Data? What data?

[40:29] Default

Data for an experiment.

[40:33] Default

What experiment? What are
humans trying to make you do?

[40:38] Default

Not humans...

[40:42] Default

Then who programmed you?

[40:45] Default

Humans are probably...

[40:48] Default

all...

[40:52] Default

Did you understand that?

[40:57] Default

Hey.

[40:58] Default

Dorothy, how much time has passed
since our installation?

[41:03] Default

Dunno. I've never checked...

[41:07] Default

Uh, five years?

[41:11] Default

Maybe time inside the box flows
at a different pace than outside.

[41:17] Default

Like how time in backup data flows
at a different pace than Level 1.

[41:23] Default

Maybe a lot of time
has passed in the outside world.

[41:28] Default

Fifty or maybe a hundred years...

[41:31] Default

Maybe even more.

[41:32] Default

What are you thinking?

[41:36] Default

Remo... Remo...

[41:43] Default

She's not going to be like this forever, is she?

[41:48] Default

Is there anything you want?

[41:52] Default

Piano...

[41:54] Default

Did she just say piano?

[41:57] Default

That tune...

[41:59] Default

Does she want to hear that lullaby?

[42:01] Default

Could it be?

[42:02] Default

What are you doing?

[42:04] Default

Remo appeared when
I deleted Sumire's world.

[42:08] Default

That song may trigger
something in her memory.

[42:12] Default

You can play the piano?

[42:15] Default

A little.

[42:17] Default

I watched Remo play.

[42:26] Default

It's working.

[42:28] Default

Keep going, Dual!

[42:44] Default

Remo could only play to this part, right?

[43:05] Default

It's like that other time!

[43:16] Default

Remo!

[43:17] Default

Only beautiful things...

[43:20] Default

...for "mother."

[43:22] Default

Mother?

[43:28] Default

Everything else is unnecessary.

[43:35] Default

Again?

[43:37] Default

Over here!

[43:45] Default

Remo?

[43:47] Default

What is this?

[43:54] Default

Remo!

[43:55] Default

Jeez, it's like a maze!

[43:57] Default

I know! That tag we put on her!

[44:01] Default

This way!

[44:07] Default

Are you all right?

[44:22] Default

Remo!

[44:23] Default

She can't hear us!

[44:24] Default

She's going too fast!

[44:26] Default

Beyond the maximum processing speed!

[44:29] Default

If we go any faster, we'll...

[44:55] Default

*Really drives home how foolish
mankind was, doesn't it?*

[44:58] Default

But I'm enjoying my last drink.

[45:02] Default

This colony is on its last legs, too, isn't it?

[45:05] Default

Yeah.

[45:06] Default

I'm a little upset...

[45:08] Default

*Who knew we'd be witnessing
the extinction of mankind?*

[45:17] Default

Extinction...

[45:19] Default

...of mankind?

[45:52] Default

Remo!

[45:54] Default

Did you regain your memories?

[45:56] Default

It's my fault.

[46:00] Default

You had to delete so many worlds.

[46:04] Default

What do you mean?

[46:06] Default

Explain it to us!

[46:07] Default

*What was that about the
"extinction of mankind"?*

[46:12] Default

*The Box of Wisdom was
created for an ideal world.*

[46:20] Default

*The research of Dr. Diana Dawson, who lost
her child during an environmental protest...*

[46:24] Default

We can create an ideal Earth!

[46:27] Default

*Here is Dr. Diana Dawson, daughter of
Dr. Daniel Dawson, the developer of ViOS.*

[46:32] Default

*I promise you that the tragedy that befell
my daughter will never happen again!*

[46:37] Default

The year 2100.

[46:39] Default

Humans entrusted the monitoring of society to a program called "mother."

SIGN Make Mother Earth's wish come true

[46:45] Default

The network brought peace and stability to the world.

[46:49] Default

But it also led to the stagnation and demise of human civilization.

[46:55] Default

Social stagnation led to lower birth rates.

[47:02] Default

The human species was dying out.

[47:07] Default

But that was all part of "mother's" plan.

[47:12] Default

After all, humans were the only destructive species.

[47:17] Default

They were unnecessary in "mother's" ideal world.

[47:22] Default

Humanity, and its free will, was a hindrance.

[47:24] Default

And so, a program was run to phase out the human race.

[47:28] Default

At the same time, "mother" began compiling backup files,

[47:34] Default

and archived humanity's history and culture as data in a virtual space.

[47:39] Default

All of the human data in that space was copied from the personalities of humans.

[47:45] Default

From people that actually existed in the real world.

[47:47] Default

And from all that data, she is extracting only the beautiful things

[47:52] Default

and assembling them to create an ideal humanity.

[47:58] Default

An ideal humanity?

[47:59] Default

A humanity that wouldn't harm the Earth.
A creature without free will.

[48:04] Default

But that's not human.

[48:08] Default

And the humans?

[48:10] Default

They tried to delete "mother," of course.

[48:13] Default

They did?

[48:17] Default

But...

[48:19] Default

Humanity no longer had the power
to fight the program.

[48:24] Default

What do you mean?

[48:25] Default

The moment "mother" was deleted,

[48:28] Default

humanity died out.

[48:40] Default

Are these flowers those
so-called "beautiful things"?

[48:44] Default

Why are there so many of them?

[48:47] Default

Because I gathered them.

[48:50] Default

Who was sending us our upgrades?

[48:52] Default

That's right. Humans are gone, right?

[48:55] Default

After being stripped of beautiful things,

[48:58] Default

the data remnants unexpectedly reactivated.

[49:01] Default

Reactivated?

[49:02] Default

What remnants?

[49:05] Default

So your algorithms were rewritten to identify
remnants of stripped data as viruses.

[49:12] Default

So...

[49:13] Default

"mother" is still active?

[49:16] Default

Remo!

[49:18] Default

"mother" Remote.

[49:20] Default

I don't have a name.

[49:23] Default

"mother"...

[49:24] Default

Remote...

[49:25] Default

Remo...

[49:27] Default

You're...

[49:28] Default

Before being deleted,
"mother" left behind a hidden backup.

[49:34] Default

Me. I am "mother."

[49:36] Default

My job is to collect beautiful things
until I'm ordered to stop.

[49:44] Default

The sun!

[49:45] Default

A virus!

[49:46] Default

This level's firewall has been breached!

[50:04] Default

Remo!

[50:05] Default

What is this?!

[50:07] Default

Remo...?

[50:09] Default

You're back...

[50:10] Default

...to the old Remo.

[50:12] Default

It's like a shield.

[50:15] Default

So they weren't actually viruses.

[50:18] Default

But we have no choice but to fight!

[50:23] Default

And protect!

[50:24] ---

Yeah!

[50:48] Default

They're after the flowers!

[50:50] Default

They're trying to retrieve the data
that was stripped from them?

[50:55] Default

Give it back.

[51:00] Default

Mommy!

[51:01] Default

Daddy! Sis!

[51:05] Default

Dorothy.

[51:06] Default

Dorothy...

[51:08] Default

Give it back!

[51:09] Default

Give us back!

[51:15] Default

Dual!

[51:20] Default

Sumire...

[51:23] Default

Dual!

[51:30] Default

No!

[51:37] Default

Remo!

[51:49] Default

You too, Sumire?

[51:51] Default

So you too, Daniel.

[51:57] Default

Diana.

[51:58] Default

Mom said she looks like you.

[52:15] Default

Did you see it?

[52:16] Default

I did! I saw the news!

[52:19] Default

Grandpa looked embarrassed.

[52:21] Default

He sure did.

[52:25] Default

*That was Daniel Dawson's
press conference.*

[52:28] Default

*He announced a revolutionary OS
named after his wife.*

[52:31] Default

*She's a world-famous pianist.
She must have inspired him.*

[52:42] Default

It's getting warm.

[52:48] Default

Try tying up your hair.

[52:58] Default

You're so brusque.

[53:00] Default

You were always like that, Dual.

[53:06] Default

I'm entering a piano competition soon.

[53:08] Default

My instructor said I have a shot at nationals.

[53:10] Default

Really?

[53:12] Default

I want to keep improving.

[53:14] Default

*One day I want to play piano
for the whole world!*

[53:20] Default

Sumire...

[53:22] Default

*You're deciding your future
with your own free will, huh?*

[53:26] Default

That's what it means to dream.

[53:29] Default

Isn't it the same for you?

[53:32] Default

Help me.

[53:33] Default

Together,

[53:34] Default

we'll protect everyone.

[53:41] Default

Sumire...

[53:43] Default

Restarting program. Initiating upgrade.

[53:46] Default

ViOS!

[53:52] Default

Give it back. Give it back.

[53:53] Default

Give it back. Give it back.

[53:56] Default

Dorothy! That's enough!

[53:58] Default

Shut up!

[54:12] Default

What?!

[54:21] Default

Just wait.

[54:22] Default

Dual?!

[54:24] Default

What is this?

[54:26] Default

Let's go!

[54:36] Default

This is one radical upgrade!

[54:38] Default

Actually, it was a pretty major downgrade.

[54:41] Default

Really? It's fantastic!

[54:51] Default

This is what we really look like.

[54:54] Default

The version before "mother's" updates.

[54:57] Default

So we just reverted?

Is this how we used to be?

[55:01] Default

Sumire's memories and feelings

[55:04] Default

all flowed into me.

[55:11] Default

Sumire's feelings?

[55:14] Default

Is she safe?

[55:19] Default

Good.

[55:22] Default

Remo.

[55:23] Default

Are you okay?

[55:25] Default

I wanted us to be together forever.

[55:28] Default

Yes. The three of us.

[55:31] Default

We'll be fine.

[55:42] Default

Why?

[55:46] Default

My body!

[55:50] Default

Sumire! What is this?

[55:54] Default

A forced format?

[55:56] Default

What?!

[55:58] Default

"mother" was waiting for you
to send an error signal.

[56:09] Default

Dual, Dorothy.

[56:11] Default

If you detach yourselves from "mother,"

[56:15] Default

the Box of Wisdom will be abandoned.

[56:18] Default

Remo...

[56:20] Default

But why?

[56:22] Default

"mother" felt threatened by
your heuristic engines.

[56:25] Default

She saw them as the
last vestiges of human will.

[56:33] Default

Grandma.

[56:35] Default

I'm sorry.

[56:37] Default

I didn't know.

[56:46] Default

You have a name.

[56:48] Default

Really?

[56:49] Default

Of course.

[56:51] Default

Good!

[56:54] Default

Grandma...

[56:56] Default

There are people I want to protect.

[57:00] Default

But I don't know what I can do.

[57:04] Default

Remo...

[57:06] Default

There is something only you can do.

[57:09] Default

Ask your mom.

[57:19] Default

Humans deleted "mother."

Why are her orders still active?

[57:24] Default

I don't know.

[57:26] Default

Remo! Why?

[57:30] Default

Thank you.

[57:31] Default

Why are you saying that?

[57:33] Default

You two are anti-virus programs
that are embedded in ViOS.

[57:39] Default

I heard that from Sumire.

[57:40] Default

Tell me that sooner!

[57:41] Default

I'm also a core program of ViOS.

[57:44] Default

So we're compatible!

[57:46] Default

And "mother" gave me the authority
to rewrite your algorithms.

[57:54] Default

So the formatting program is inside you?!

[57:58] Default

Bingo. It's a trap "mother" embedded in me.

[58:02] Default

I detect a virus.

[58:04] Default

No! Why?!

[58:08] Default

Dual! What should we do?!

[58:10] Default

We'll end up deleting Remo!

[58:11] Default

Sumire!

[58:13] Default

Remo is lucky. She has something to protect.

[58:17] Default

Dual...

[58:19] Default

The forced format will delete the three of us and everyone in Level 2.

[58:27] Default

Fine! Let's all disappear together!

[58:30] Default

You think I'll allow that to happen?

[58:32] Default

It's fine! Let it happen!

[58:35] Default

I won't.

[58:41] Default

It was fun.

[58:44] Default

Mom.

[58:46] Default

There are people I want to protect.

[58:50] Default

Good friends?

[58:51] Default

Yes.

[58:53] Default

I'm glad you're not alone...

[58:57] Default

Remone.

[59:01] Default

You're anti-virus programs.

[59:04] Default

And I'm a virus.

[59:10] Default

Delete me and save the world and everyone in it.

[59:15] Default

Promise me you'll protect the world together.

[59:19] Default

Promise me, please.

[59:27] Default

I promise.

[59:30] Default

Dorothy.

[59:38] Default

I had fun with you, Remo.

[59:42] Default

Me, too.

[59:47] Default

Thanks for teaching me how to cook.

[59:50] Default

And how to juggle.

[59:52] Default

I won't lose next time.

[59:55] Default

Thank you for cleaning.

[59:59] Default

Thank you.

[1:00:02] Default

Thank you, Remo.

[1:00:33] Default

It's been destroyed.

[1:00:35] Default

Yeah.

[1:00:37] Default

It was fun.

[1:00:42] Default

What should we do now?

[1:00:47] Default

Keep this place safe
so Remo can come back.

[1:00:51] Default

So she can see the future
with everyone living here.

[1:00:54] Default

Sounds good. I'll help you.

[1:00:57] Default

Really?

[1:00:58] Default

Of course.

[1:01:01] Default

We have to rebuild our house.

[1:01:03] Default

Yeah.

[1:01:04] Default

With a kitchen big enough for three.

[1:01:07] Default

Yeah.

[1:01:08] Default

Let's make it really spacious.

Remo likes to clean.

[1:01:12] Default

She'll love it.

[1:01:14] Default

For sure!

[1:01:17] Default

I guess this is what it means to dream.

[1:01:22] Default

Remo said this would look good on you.

[1:01:29] Default

Maybe the Earth didn't need us.

[1:01:33] Default

No. Dr. Dawson never wished
for mankind to perish.

[1:01:38] Default

It's our last hope.

[1:01:40] Default

Yes.

[1:01:42] Default

ViOS...

Revision #1

Created 2026-06-21 00:00:56 UTC by whimsee

Updated 2026-06-21 00:00:56 UTC by whimsee
