**[00:02] Nar**

*In the beginning, God created  
the heavens and the earth.*

**[00:07] Nar**

*He followed them*

**[00:11] Nar**

*with light, waters, and the land.*

**[00:15] Nar**

*Then he created the many animals  
that would inhabit it.*

**[00:21] Nar**

*Or... that was the plan.*

**[00:23] Nar**

*It got too tedious, so he outsourced it.*

What is that?

**[02:07] Shi**

A-An insect!

**[02:08] Kana**

Why is that thing here?! Someone take that  
thing to the insect department, now!

**[02:13] Shi**

It's coming this way!

**[02:15] Kan**

No!

**[02:18] Ued**

Oh, you escaped from the insect department,  
you naughty thing.

**[02:22] Kim**

Catching something that fast with her bare  
hands shows that Ueda-san really is an angel.

**[02:27] Shi**

I can't do that.

**[02:29] Ued**

Shimoda-kun, you haven't been to the insect department yet, right?

**[02:31] Ued**

It's the door over there.  
I'll introduce you.

**[02:34] Shi**

O-Oh, all right.

**[02:36] Shi**

I guess the insect department will be full of insects.

**SIGN** Insect Department

**[02:42] Ued**

Hello, everyone.

**[02:45] Ina**

Hey, Ueda-san.

**[02:46] Inb**

Hey, Ueda-san.

**[02:47] Inc**

Oh, Ueda-san!

**[02:48] Ind**

It's Ueda-san!

**[02:49] Ine**

It's Ueda-san!

**[02:50] Ued**

This little dear was outside.

**[02:52] Ina**

We're terribly sorry that you had to bother yourself with this.

**[02:57] Inb**

We're in the middle of miniaturizing this guy.

**[03:00] Shi**

You're miniaturizing an insect?

**[03:02] Inc**

Yes, we're going to scale this 70-centimeter dragonfly down to one tenth of its size.

**[03:06] Shi**

I just realized they have huge bags under their eyes!

**[03:09] All**

We *will* make it seven centimeters.

**[03:11] Ued**

As always, your technical abilities are perversely good.

**[03:16] All**

Thank you!

**[03:17] Shi**

*Is "perverse" praise, though?*

**[03:20] Ued**

Now you know where  
the insect department is.

**[03:22] Shi**

Yes. I'm not sure if they were  
unique or the exact opposite.

**[03:26] Ued**

Our company also has a rock department,  
a plant department, and—

**[03:32] Kan**

I-I touched it! It's over...

**[03:35] Shi**

Venus-san?!

**[03:36] Kan**

Ah, if I have to go, I wish I could have  
died in bigger, stronger arms...

**[03:42] Ued**

Oh, what a cute yellow frog.

**SIGN** Poison Dart Frog

**[03:46] Kan**

Don't touch it! It may be small,  
but its poison is lethal!

**[03:49] Shi**

Huh? But didn't you

**[03:51] Kan**

My vision's going faint.  
Please, hold my hand.

**[03:56] Shi**

Venus-san!

**[03:59] Ued**

But the poison...

**[04:00] Mei**

It's fine. This poisonous frog accumulates  
poison by eating ants and mites.

**[04:06] Mei**

This one was just made, so it hasn't  
eaten anything. It's just a frog.

**[04:10] Shi**

Phew!

**[04:11] Kan**

I was terrified.

**[04:13] Kan**

But now that I look at it,  
it has a lovely pattern.

**[04:17] Mei**

Look!

**[04:18] Mei**

See, when the eggs hatch...

**[04:22] Shi**

Oh, it puts its children on its back.

**[04:25] Kan**

Cute!

**[04:26] Ued**

Oh, I wonder where it's going.

**[04:30] Mei**

To a small pool of water with no predators.

**[04:33] Shi**

If it's a small pool of water,  
won't these babies lack food?

**[04:37] Mei**

They won't.

**[04:39] Mei**

The eggs that the mother laid are there.

**[04:42] Both**

*Cannibalism?!*

**[04:44] Shi**

W-Wasn't there any other way?

**[04:46] Mei**

Why? Isn't it so cute?

**[04:49] Shi**

C-Cute?

**[04:51] Ued**

God has approved that one,  
so it's already on earth.

**[04:55] Ued**

Pluto-chan's specialty is  
frogs and other cute things.

**[04:58] Shi**

Cute?

**[05:00] Ued**

That reminds me... A new order  
from God came in, right?

**[05:04] Shi**

Ah, right.

**[05:05] Shi**

I believe it was for an animal  
that's "cute, but not cute."

**[05:09] Kan**

As always, so vague!

**[05:11] Kan**

I bet this'll be one we have  
to redo again and again!

**[05:13] Shi**

I-It'll be fine. God trusts you guys.

**[05:18] Shi**

The word is that "the design is up to you."

**[05:21] Kan**

There has never, ever been a case where the client said it was up to us and *meant* it!

**[05:26] Kan**

Those abstract requests  
are the absolute worst!

**[05:29] Kan**

I swear, the answer is always  
"that's not quite it."

**[05:31] Kan**

Don't just drop it on our lap without  
even giving it a single thought!

**[05:33] Shi**

I'm s-sorry!

**[05:35] Mei**

I'll do it.

**[05:36] Ued**

Oh, Pluto-chan's going to make

**SIGN** A Few Days Later...

**[05:43] Shi**

Hello.

**[05:44] Shi**

Pluto-san, how's your progress?

**[05:46] Mei**

Good. I came up with something really cute!

**[05:49] Shi**

Oh really? What's it like?

**[05:51] Mei**

Well, it's a thin, long, water-loving  
parasite that can take over animals' brains.

**[05:59] Mei**

Then the infected animal walks to the pool  
where the parasite lives, and drowns there.

**[06:05] Mei**

That'll be food for the parasite's children.

**[06:07] Shi**

*Th-That's not cute.*

**[06:09] Kan**

Excuse me, Pluto-chan?  
The idea is revolutionary,

**[06:13] Kan**

but don't you think that the balance between

cute and not-cute is a bit skewed?

**[06:17] Mei**

I guess I can't just stuff  
it full of cute elements.

**[06:21] Kan**

I mean you have to consider  
the size problem, too.

**[06:23] Kan**

If it's supposed to infect animal brains,  
it has to be really tiny.

**[06:27] Shi**

Oh, if you need to miniaturize it,  
how about taking it to the insect department?

**[06:31] Shi**

They might be able to give you some help.

What's happening in here?

**[06:58] Ued**

Pluto-chan has really hit her stride.

**[07:03] Kan**

I wanted to discuss something with her, too,  
but she's been like this the entire time.

**[07:07] Kim**

Her focus is impressive.

**[07:09] Ued**

Please make sure not to interrupt her.

**[07:12] Miz**

Pluto always creates great stuff.

**[07:16] Mei**

It'll be cooler to have two p•n•ses.

**[07:22] Uie**

Oh, nice idea.

**[07:25] Mei**

Its food will be poison. It'll eat poison.

**[07:37] Mei**

It's done!

**[07:39] Mei**

Thank you for your help, Neptune-san.

**[07:42] Una**

I'm glad I was able to help.

**[07:44] Shi**

Y-You finished it?

**[07:46] Mei**

Will you come to my presentation?

**[07:49] Mei**

The client's order was  
"cute, but not cute."

**[07:52] Mei**

That's why I stuffed it full  
of what I find "cute."

**[07:55] Mei**

First, it eats poisonous plants.  
It doesn't eat anything else.

**[08:00] Mei**

I borrowed Neptune-san's idea and added the  
same pouch function that kangaroos have.

**[08:05] Mei**

But I reversed it, so the baby  
can eat their mother's poop.

**[08:10] Mei**

And I made the male's p•n•s  
cool by doubling it up.

**[08:15] Ued**

Oh my, that's so cute.

**[08:18] Shi**

My understanding of "cute" is eroding.

**[08:22] Mei**

Its pupils are vertical slits.

**[08:24] Mei**

It has sharp nails on its fingers.

**[08:26] Mei**

And a deathly voice for intimidation.

**[08:29] Mei**

Since all of these elements are very cute,  
I made its exterior not cute at all!

With its poison and little nutritional value,

**[08:55] Kan**

eucalyptus is a plant that's trying  
to have no appeal as food.

**[08:58] Mei**

Koalas are hardcore and eat only that.

**[09:01] Mei**

If they eat something nobody else eats,  
they have no competition.

**[09:05] Kan**

In order to digest that, they have a  
lot of microbes in their gut, right?

**[09:09] Mei**

Yes, the reason the children  
eat their mother's poop

**[09:12] Mei**

is to inherit the gut microbes  
that can digest the eucalyptus.

**[09:16] Mei**

Oh, right, do you want to hear  
what a koala sounds like?

**[09:21] Kan**

That's more intense than I expected.  
How did it end up like this?

**[09:25] Mei**

Since their food has so few nutrients,  
they don't want to move.

**[09:28] Mei**

So they've come to fight  
using only their voices.

**[09:31] Mei**

They're already exhausted just  
from digesting eucalyptus.

**[09:36] Kan**

This one's really pushing it.

**[09:47] Tsu**

It's so elegant!

**[09:49] Tsu**

Really?

**[10:32] Kim**

Yes, but apparently deer are fine because they're equipped with multiple stomachs.

**[10:37] Kim**

Saturn-san's horse only has one stomach, so...

**[10:40] Miz**

In other words, the difference is in nutrient absorption.

**[10:43] Shi**

I see.

**[10:44] Hig**

If you don't have a calcium reserve, you can't make something this extravagant.

**[10:49] Shi**

It's extravagant?

**[11:07] Hig**

A horse has a weak stomach, so it doesn't have the energy to repair the house.

That example was kind of horrible.

There, there...

**[12:00] Miz**

How about making the horn hollow, to reduce

brain is always awake!

**[17:51] Kim**

By the way, what do they eat?

**[17:54] Una**

Uh, well, squid and such.

**[17:57] Mei**

So it eats these cute babies I created.

**[18:01] Shi**

Pluto-san, aren't you  
holding it upside down?

**[18:04] Mei**

This is the top.

**[18:05] Mei**

After the tentacles, there's the head,  
then the body.

**SIGN** Head

**SIGN** Head

**SIGN** Body

**[18:09] Mei**

Incidentally, it poops from  
the side of its head.

**[18:12] Una**

Pluto-chan's imagination is really powerful.

**[18:16] Mei**

But since Neptune-san's dolphins are smart,  
my babies get eaten a lot.

**[18:20] Mei**

I've decided! I'll make them talk, too!  
I'll make them smart!

**[18:24] Kan**

You want to equip them  
with vocal organs now?

**[18:27] Mei**

What about changing body color,  
something like flag signaling?

**[18:32] Kab**

Would that be understood, though?

**[18:33] Mei**

Quiz! What is the meaning of this pattern?

**[18:36] Kan**

I think the testicles are there, so maybe...

**[18:39] Kan**

"I'm incredibly virile!"

**[18:42] Mei**

It worked! Ven-chan, you're amazing!

**[18:45] Mei**

And they show off something larger  
than their actual testicles.

**[18:48] Kan**

I guess even squid are vain.

**[18:50] Una**

That's amazing. Pluto-chan can't be beat.

**[18:54] Mei**

They won't lose to dolphins!

**[18:56] Mei**

Squids have three hearts,  
giving them more mobility!

**[18:59] Mei**

This way, they can escape into deep water,  
where no light penetrates!

**[19:02] Una**

Huh, but... then, um... who cares  
that it's deep water?

**[19:06] Una**

The dolphins will use echolocation to find  
squid without needing light!

**[19:10] Shi**

Is this a fight?

**[19:11] Hig**

Oh, looks like this will be fun.

**[19:15] Mei**

Animal battle!

**[19:17] Una**

Survival of the fittest!

**[19:18] Shi**

The dolphin is going straight for the squid!

**[19:21] Shi**

But what is echolocation, anyway?

**[19:23] Kim**

Simply put, it's sensing distance and  
direction using reflected sound waves.

**[19:28] Mei**

Smoke screen!

**[19:31] Una**

Are you sure squid ink will

do anything in the darkness?

**[19:34] Mei**

Then I'll evolve the smoke screen!  
A smoke screen of light!

**[19:39] Shi**

*It's like there are no rules anymore.*

**[19:41] Mei**

And the squid itself will shine, too!

**[19:43] Una**

You're losing your touch, Pluto-chan!

**[19:44] Una**

In the ocean, the shinier you are,  
the more visible you are!

**[19:46] Mei**

You're the one losing your touch!

**[19:48] Mei**

Rise up near the surface!  
With the sun as the backdrop!

**[19:51] Una**

Wh-What the—?!

**[19:53] Una**

The squid disappeared in the sunlight!?

**[19:56] Una**

But we still have the  
echolocation on our side!

**[19:59] Una**

Advance!

Hidden Technique: Surface Escape Mega Jump!

**SIGN** Flying Squid

**[20:06] Shi**

It flew!

**[20:07] Shi**

Oh, so those fin-like things were wings.

**[20:10] Ued**

It's jumping by ejecting sea water!

**[20:12] Kim**

Good job!

**[20:13] Kna**

Both of you, keep going!

**[20:14] Una**

That's nothing! The dolphin will jump, too!

**[20:18] Mei**

Then I'll use my last resort!

**[20:20] Mei**

Giant squid upgrade!

**[20:24] Una**

I'll match you on that!

**[20:29] Shi**

God has spoken!

**[20:30] God**

Accepted!

**[20:34] Kan**

No way, the big squid passed!

**[20:36] Miz**

Aha, the client's watching the battle, too.

**[20:40] Una**

Pluto-chan, you made me go all-out.

It was a good battle.

**[20:47] Una**

But it's time to end this.

**[20:53] Una**

Echolocation update! Ultrasonic beam!

**[21:06] Mei**

No way! I can't believe your beam got accepted!

**[21:09] Mei**

Next time, I won't lose!

The Illustrated Guide to Creatures

That Really Exist!

**[21:18] Shi**

Total length: 18 meters!

**[21:20] Tsu**

That's about as long as a train car.

**[21:22] Shi**

Can such a large animal really  
emit a beam from its head?

**[21:26] Tsu**

It can.

**[21:27] Tsu**

What's more, it can direct sound so  
intense that it makes its prey faint.

**[21:34] Shi**

I can't quite imagine how.

**[21:36] Tsu**

A sperm whale can output  
a maximum of 250 decibels.

**[21:41] Tsu**

For reference, a jet engine is about  
120 decibels if you're standing next to it.

**[21:46] Shi**

Wow. The sperm whale must be  
fighting really formidable foes!

**[21:51] Shi**

That's why it evolved to get  
so big to deal with them!

**[21:53] Tsu**

Sperm whales often have scars on  
their heads that are assumed to be

**[21:58] Tsu**

from battles with giant squid.

**[21:59] Shi**

So the ruthless battle between  
these two is never going to end!

**[22:04] Ued**

God has spoken!

**[22:06] God**

Accepted!

**SIGN** Accepted

**SIGN** Sea Horse

**[22:09] Tsu**

Yay! When I made that kelpie from  
earlier smaller, it passed!

**[22:13] Ued**

Congratulations.
