**[00:01] Shi**

Good morning!

**[00:02] Shi**

I hope work's going well for everyone—

**[00:05] Shi**

It's not.

**[00:07] Tsu**

Oh, hello, Shimoda-kun.

**[00:09] Kan**

What's the matter?

**[00:10] Kan**

It's always like this, no?

**[00:12] Shi**

Is it, though?

**[00:14] Kan**

Everybody's stuck right now.

**[00:16] Kan**

Unlike me, they got hit with some annoying requests.

**[00:19] Kan**

Unlucky for them.

**[00:22] Shi**

Oh, there's an order from God for you personally, Venus-san.

**[00:27] God**

Order: Make horses fly somehow.

**SIGN** Heaven's Design Team

**[02:03] Shi**

"When you say horse, you think of Saturn-san,"

**[02:06] Shi**

"but this time I specifically wanted Venus-san to have a go."

**[02:08] Shi**

"That dragon from the other day was fun."

**[02:10] Shi**

That's what God thinks.

**[02:12] Tsu**

What, you're making a pegasus? I'm jealous.

**[02:16] Shi**

I'm sure it'll get done if everybody rallies behind you, Venus-san!

**[02:21] Kan**

It won't be that easy.

**[02:23] Kan**

Saturn-san would be crucial, but he's busy right now.

**[02:27] Tsu**

I have to work with Mars-san to repair the prototype lab.

**[02:30] Tsu**

I need to do it because my grandson caused the damage.

**[02:34] Tsu**

But I'm really looking forward to Ven-chan's pegasus, too!

**[02:37] Kan**

I really don't like this.

**SIGN** "Huddles in Corner" Type

**[02:40] Shi**

Everybody's agonizing...

**SIGN** "Hugs Knees in Chair" Type

**SIGN** "Hides What He's Drawing" Type

**[02:46] Shi**

Pluto-san seems to be relaxed.

**[02:48] Kan**

It may seem so, but she's the most stressed-out person here.

**[02:52] Mei**

I haven't heard back from the client in three days.

**[02:55] Mei**

They said "ASAP," so I worked very hard.

**[02:58] Mei**

But I guess...

**[02:59] Mei**

There was plenty of time.

**[03:02] Shi**

I can put some pressure on God!

**[03:04] Mei**

It's fine.

**[03:06] Mei**

If you act like you're really enthusiastic,

**[03:09] Mei**

it'll come back and punish  
you in the future.

**[03:11] Una**

You know what I got?

**[03:13] Una**

"An animal that runs even  
though it has no legs."

**[03:17] Una**

To make it worse, I'm supposed  
to make three proposals.

**[03:21] Una**

Lately, we only get orders  
that are like riddles.

**[03:25] Kim**

I want something sweet.

**[03:27] Miz**

I want a homemade caramel custard,  
where the caramel is slightly bitter.

**[03:30] Kim**

Why did you bring up such a  
specific treat just now?

**[03:30] Shi**

*I had the impression that designers  
are always doing fancy work,*

**[03:34] Shi**

*but I guess I was totally off!*

**[03:38] Shi**

Venus-san, I got some additional input.

**[03:40] Shi**

He said: "You can do what you like!"

**[03:43] Shi**

God must really trust your designs!

**[03:46] Kan**

No!

**[03:47] Kan**

That just means he'll leave it all to me  
and only give it some thought when it's done!

**[03:50] Kan**

This is how you end up in Hell!

**[03:52] Kan**

We already know what the problems are,  
so maybe I just need to go in headfirst.

**[03:57] Shi**

S-So many muscles!

**[03:59] Shi**

And so much horse poop!

**SIGN** Pegasus

(Revised)

**[04:01] Kan**

I reduced the protein myostatin,  
which inhibits muscle growth.

**SIGN** M

y  
o  
s  
t  
a  
t  
i  
n

**[04:06] Kan**

Isn't he so fit?

**[04:09] Shi**

I'll just send this to God, then. And... send!

**[04:13] Kan**

I can rest until we hear back, then.

**[04:16] Shi**

Oh, I already got a reply.

**[04:18] Kan**

Already?!

**[04:21] Shi**

I'll just say what he said directly.

**[04:23] Kan**

What? I'm scared...

**[04:25] Shi**

"That's not quite it," he says.

**[04:28] Kan**

What?

**[04:29] Shi**

"I wanted something more surprising,  
not the same thing."

**[04:32] Shi**

"Let your originality run wild,  
Venus-san!" End quote.

**[04:36] Kan**

See, there it is!

The "I'll reconsider after seeing it" spiel!

**[04:39] Kan**

Say what you want from the beginning!

**[04:43] Shi**

I don't think shouting here will reach him.

**[04:45] Kan**

That's why I'm doing it!

**[04:53] Kan**

How about this, then?!

**SIGN** Pegasus

Final

Revision

**[04:54] Shi**

Those are some cool lines.

**[04:56] Shi**

Exceptional!

**[04:57] Kan**

I gave it less muscle mass  
to reduce its overall weight.

**[05:02] Kan**

It can't take off from the ground,

**[05:04] Kan**

but if it jumps off a cliff and  
rides the air currents, it can fly.

**[05:08] Shi**

That's so original!

**[05:10] Shi**

I sent it. I'm sure he'll like this one!

**[05:14] Kan**

I hope so.

**[05:18] Shi**

Can I say it?

**[05:19] Kan**

You already got a reply?

**[05:22] Kan**

I already have a bad feeling, but go ahead.

**[05:26] Shi**

He says: "You don't have to stick  
to the horse part. Small is okay, too."

**[05:31] Kan**

Why didn't he tell me that beforehand?!

**[05:34] Kan**

I'll go and start from scratch...

**[05:37] Shi**

G-Good luck.

**[05:40] Shi**

God, this is too much.

**[05:42] Shi**

Please be more understanding  
of the work the designers do.

**[05:46] God**

Got it!

**[05:48] Shi**

Thank you!

**SIGN** 2 Hours Later

**SIGN** Strawberry Shortcake

**[05:52] Kan**

I-I-I-It's done. Would you send it to the client, please?

**[05:57] Shi**

Yes! Great work!

**SIGN** Pegasus

Ultimate Final

Revision

**[06:00] Kan**

This is the ultimate final proposal for the revised pegasus!

**[06:03] Kan**

What do you say about this?!

**[06:05] Shi**

It's so pretty!

**[06:06] Kan**

I worked off the image of a flower fairy.

**[06:09] Kan**

Since I made the arms into petal-like wings,

**[06:12] Kan**

it can disguise itself as a flower.

**[06:14] Shi**

Wow.

**[06:15] Kan**

For food, it drinks nectar.

What do you think?

**[06:18] Shi**

I like it! I'll send it now.

**[06:27] Shi**

May I say it?

**[06:29] Kan**

Please.

**[06:31] Shi**

"The previous hellish iteration was better."

**[06:34] Shi**

"Use a radial design, and don't make it colorful," he said.

**[06:39] Kan**

The previous iteration?

**[06:41] Kan**

What's with the technical jargon all of the sudden?

**[06:44] Shi**

I'm sorry! It's because I had to open my big mouth to God.

**[06:48] Shi**

I asked him to be more understanding  
of the work you designers do.

**[06:51] Shi**

I thought he did that, but he's  
still just as unreasonable.

**[06:56] Kan**

It's fine. You said it because  
you wanted to help us, right?

**[07:00] Kan**

The client's at fault here.

**[07:06] Una**

I can't think of anything.

**[07:08] Una**

Ven-chan, can I see yours  
to take my mind off things?

**[07:11] Kan**

Sure.

**[07:12] Kan**

We've all got it rough, huh?

**[07:16] Kan**

So, go back to the previous  
iteration with the bony design,

**[07:18] Kan**

make the face shorter, too,  
and reduce the equine quality.

**[07:22] Kan**

You know, while I'm at it,  
I'll get rid of the leg muscles.

**[07:26] Kan**

It's done!

**SIGN** Pegasus Ultimate

Final Revision

Forever

**[07:29] Kan**

This is the ultimate final proposal  
for the revised pegasus, *Forever!*

**[07:35] Kan**

Forever-chan hangs from high places,

**[07:38] Kan**

then uses the momentum  
of its fall to take flight.

**[07:40] Kan**

This way it can be light.

**[07:43] Shi**

That's so interesting!

**[07:44] Una**

So it spends its time hanging.

**[07:47] Una**

Do you want to add the echolocation that dolphins have, so it won't bump into things?

**SIGN** Dolphin Echolocation

**[07:52] Kan**

That's good! And for food...

**[07:55] Mei**

From the way it looks, it should suck blood.

**[07:58] Kan**

Nectar.

**[08:00] Mei**

It would be cuter if it sucked blood.

**[08:02] Kan**

N-Next time.

**[08:04] Shi**

I'll send this off right away.

**[08:08] Shi**

God has spoken!

**[08:10] God**

Accepted!

**SIGN** Accepted

**SIGN** Greater

Horseshoe

Bat

**[08:14] Shi**

This is great! What a relief!

**[08:17] God**

This is accepted, too!

**[08:20] Kim**

What just made it?!

**[08:22] Una**

A running urchin...

**SIGN** Lovenia

elongata

**SIGN** Accepted

**[08:25] Kim**

That's so freaking cool!

**[08:26] Miz**

So fast! So awesome!

**[08:27] Una**

The thing I sent when I stopped caring passed...

**[08:31] Kan**

Oh no, I forgot to delete that!

**[08:33] Kan**

There are two sets of teats!

**[08:35] Kan**

Nothing will come out of the ones that are on top to us.

**[08:38] Shi**

The design already got accepted, though.

**[08:42] Kan**

I'm done. Leave it.

**[08:44] Kan**

The other ones are... something the baby can latch onto so it won't fall down.

**SIGN** False Nipples

**[08:49] Shi**

"Something"?

**SIGN** Latch

**SIGN** The Illustrated Guide to Creatures That Really Exist

**[08:53] Ken**

The Illustrated Guide to Creatures That Really Exist!

**[08:57] Tsu**

What is better at flying? These or birds?

**[09:00] Hig**

I think the bats.

**[09:02] Hig**

Unlike birds, which use their entire arm to fly,

**SIGN** Bat Wing

**SIGN** Thumb

**SIGN** Index Finger

**SIGN** Middle Finger

**SIGN** Ring Finger

**SIGN** Little Finger

**SIGN** Bird Wing

**[09:04] Hig**

bats spread their fingers to make a wing.

**[09:07] Hig**

Fingers allow for more fine-tuned control.

**[09:12] Tsu**

That just goes to show that the horse is the most supreme animal.

**[09:15] Hig**

The horse has nothing to do with this!

**[09:17] Hig**

...is what I'd like to say, but in reality, in terms of animal orders,

**[09:21] Hig**

bats are close relatives of horses.

**[09:24] Tsu**

There are bats that are

basically horses. See?

**[09:27] Hig**

That one's just got an elongated  
face to have a louder voice.

**[09:30] Hig**

Looking like a horse is just a coincidence.

**[09:45] Miz**

What's up with Venus?  
She's dressed to the nines.

**[09:49] Shi**

She seems very enthusiastic.

**[09:51] Kan**

This time my order is for  
"a bird that's like a gem"!

**[09:54] Kan**

You can't lift your mood  
if everything looks drab.

**[09:57] Kan**

Look at these opals. Aren't they gorgeous?!

**[10:00] Kan**

What do you think about a bird that  
shimmers with rainbow colors like this?

**[10:03] Miz**

If you keep being so confident—

**[10:08] Shi**

Ah, yes? All right, understood.

**[10:11] Shi**

You got a follow-up order. God would  
like to see "a bird that makes gems."

**[10:17] Kan**

I did make birds feel attracted to  
shiny things, but making gems?

**[10:23] Kan**

You can have one of these if you help me.

**[10:26] Miz**

Keep them. I don't understand gems.

**[10:28] Kan**

That's right. This place is lacking  
in romance *and* romanticism.

**[10:33] Miz**

What's that "opal" rock made of?

**[10:37] Hig**

Opal is silicon dioxide. It's a mineral  
formed from silica dissolved in water.

**[10:41] Miz**

Silica... Ah, like in those  
desiccants they put in cracker bags!

**[10:46] Kan**

Don't say that! That's so unromantic!

**[10:49] Hig**

Anyway, I made that rainbow-colored  
bird you asked me to make.

**[10:54] Miz**

A bird that flashy will be easy prey.

**[10:56] Kan**

It'll be just fine!

**[10:59] Kan**

It's so small it can land here,  
weigh about this much,

**[11:03] Kan**

and it's very fast.

**[11:05] Kan**

So? You think it'll be attractive food?

**[11:09] Miz**

I see.

**[11:10] Miz**

Compared to the effort it takes to catch it,  
it's got too little nutritional value.

**[11:13] Kan**

Exactly! So nothing to worry about!

**[11:16] Kan**

Mars-san, let me see, please!

**[11:17] Hig**

About that... I made it, but it  
doesn't have enough energy.

**[11:22] Hig**

It's so small, it can't maintain  
its body temperature.

**[11:24] Kan**

But I managed to make it sparkle!

**[11:27] Miz**

Do you give up?

**[11:29] Kan**

O-Of course not! I'll make it work somehow!

**[11:33] Kan**

If it gets too cold, it should just eat.

**[11:35] Kan**

Something it can consume  
in large quantities,

**[11:37] Kan**

is easy to digest,  
and is also high in calories.

**[11:46] Kan**

Ah, nectar! That's romantic,

and it's very nutritional.

**[11:50] Kan**

But since I reduced its leg muscles,

**[11:53] Kan**

it doesn't have the strength  
to walk along branches,

**[11:56] Kan**

nor the power  
to tear apart the petals.

**[11:59] Kan**

It's ephemeral and cute,  
but that's not enough!

**[12:03] Kan**

Should I make it hover like a bee,  
and have it drink directly?

**[12:06] Kan**

But then these traditional  
bird wings won't do.

**[12:09] Kan**

I have no choice. I'll go  
ask the insect department.

**[12:13] Kan**

Ow!

**[12:14] Shi**

Venus-san!

**[12:16] Miz**

That's what happens when you  
try to rush in shoes like those.

**[12:19] Miz**

Putting on too many accessories  
is also dangerous.

**[12:21] Kan**

That may be true,  
but don't deny me my looks.

**[12:25] Kan**

I'm not me if I don't look like this!

**[12:28] Kan**

That's the same for the  
animals we're creating!

**SIGN** Insect Department

**[12:33] Guya**

How does a bee fly, you ask?

**SIGN** Bird

**SIGN** Up

and

Down

**SIGN** Bee

**[12:38] Guyb**

The bee moves its wings back and forth,  
creating a vortex in the air that lets it fly.

**SIGN** Back and Forth

**[12:43] Guyc**

This design is more suited for hovering in midair,  
rather than always moving forward.

**[12:47] Kan**

I see. Since it's a small, light bird,  
it might be able to copy that.

**[12:51] Guyd**

If you include this ability,  
it won't just be able to hover!

**[12:54] Guyd**

It'll also be able to fly...

**[12:56] Guyd**

Backwards!

**[12:59] Kan**

Yay, it flies!

**[13:02] Shi**

It's able to drink the nectar, too!

**[13:04] Hig**

Yeah, but since it needs to eat to live,  
I don't think it'll survive the night.

**[13:09] Hig**

If it falls asleep, it'll die.

**[13:10] Shi**

If it sleeps, it'll die?!

**[13:11] Kan**

Oh, right! What should we do?

**[13:14] Miz**

Why not make it hibernate?

**[13:16] Kan**

Just for the night,

**[13:17] Kan**

make it lower its heart rate and  
body temperature, like during hibernation.

**[13:21] Hig**

That might let us slow its metabolism  
while sleeping to less than 10%.

**[13:25] Hig**

That'll work!

**[13:26] Shi**

God has spoken!

**[13:28] God**

Accepted!

**SIGN** Accepted

**SIGN** Hummingbird

**[13:31] Kan**

Yay! The gem-like birdie is complete!

**[13:36] Kan**

Thank you, Mercury!

**[13:38] Kan**

But what exactly motivated you to help?

**[13:40] Miz**

I take pride in my own style.

**[13:44] Miz**

You're the same, right?

**[13:45] Miz**

It's only natural that  
I feel compelled to help.

**[13:49] Miz**

By the way, since you were struggling  
so much with that one,

**[13:53] Miz**

I finished the other one.

**[13:56] Hig**

Let me see... the bird that makes gems?

**[13:59] Miz**

Will this work?

**[14:00] Hig**

Yeah, that's simple.

**[14:04] Miz**

Let me present it to you.

**[14:06] Miz**

Doubling down on Venus's base setting  
that birds like shiny things,

**[14:11] Miz**

this bird eats raw diamonds.

**[14:15] Kan**

Birds don't have teeth,

**[14:17] Kan**

so they swallow pebbles to store in their gizzards,  
which are located in the back of the stomach.

**SIGN** Gizzard

**[14:20] Kan**

They use them to crush the food they eat.

**[14:22] Shi**

S-So it's a diamond gizzard?

**[14:26] Kan**

But won't it not be able to fly  
if it eats rocks that big?

**[14:29] Miz**

Exactly. That's why I made it flightless.

**[14:32] Miz**

I made its legs stronger, so it can protect  
itself from enemies by kicking and dashing.

**[14:36] Miz**

The raw diamonds it swallowed  
will tumble

**[14:39] Miz**

in the back of its stomach  
for years, eventually becoming

**[14:42] Miz**

fully-polished gems.

**[14:44] Miz**

These gems are made—

**[14:46] Miz**

by this bird!

**[14:49] Kan**

What is this?! It's looks  
scrawny and has no grace!

**[14:52] Kan**

Why does this bird not have feathers?!  
That's not beautiful!

**[14:54] Miz**

It doesn't need them, since it doesn't fly.

**[14:56] Kan**

That's so unromantic!

**[14:57] Kan**

Birdies need to be more like this.

**[14:59] Kan**

Big eyes and eye lashes!

**[15:02] Kan**

And luxurious feathers on the body!

**[15:03] Miz**

Stop it!

**[15:04] Miz**

You're ruining the beauty of its utility!

**[15:06] Kan**

Let go!

**[15:10] Shi**

God has spoken!

**[15:11] God**

Accepted!

**SIGN** Accepted

**SIGN** Ostrich

**[15:16] Kan**

It's not beautiful.

**[15:18] Miz**

It's inefficient.

**[15:19] Both**

That's not the design I wanted.

**[15:22] Kan**

The client was happy, though.

**[15:25] Kan**

We did well.

**[15:27] Miz**

You're right. The result was good.

**[15:31] Kan**

So, which gem do you want as a reward?

**[15:33] Kan**

If there's someone you want to give it to, I'll help you pick.

**[15:38] Miz**

The diamond will do.

**[15:42] Miz**

I'll give it to Mars-san.

**[15:45] Hig**

Wh-What? For me?

**[15:48] Hig**

Are you sure?

**[15:49] Miz**

Of course.

**[15:51] Miz**

You were looking for a lens material with a high refractive index.

**[15:54] Hig**

Thank you! This is a perfect lens to focus my laser beams.

**[15:58] Kan**

This place is *severely* lacking in romance.

**SIGN** The Illustrated Guide to Creatures That Really Exist

**[16:03] Ken**

The Illustrated Guide to Creatures That Really Exist!

**[16:08] Guya**

Since these feathers shimmer because of the way light bounces off of them,

**SIGN** Structural

Color

**[16:12] Guya**

this is called structural color.

**[16:14] Guyb**

Both soap bubbles...

**[16:15] Guyb**

...and the oil on ramen have structural colors!

**[16:19] Guyb**

This has been a message from the insect department!  
We're experts on structural color.

**[16:23] Guyb**

This is also structural color.

**[16:25] Guyb**

When you tilt it, it shimmers  
with rainbow colors, right?

**[16:27] Guya**

It's basically emitting color by  
stacking blocks that reflect light.

**[16:32] Guyb**

Please look at this creature,  
which has mastered this technique!

**[16:45] Ued**

Good morning, everyone—

**[16:48] Ued**

Huh?

**[16:49] Ued**

Oh, my!

**[16:54] Ued**

Are you all part of an  
avant-garde art exhibition?

**[16:58] Shi**

We're supposed to be playing hide-and-seek.

**[17:01] Ued**

In clothes that stand out so much?

**[17:03] Shi**

Saturn-san, it's not possible...

**[17:05] Shi**

Your striped horse thing, I mean.

**[17:07] Tsu**

No, wait.

**[17:10] Tsu**

Even if an angel like Ueda-san can see us,

**[17:13] Tsu**

maybe animals won't be  
able to spot us so well.

**[17:16] Miz**

It might be good camouflage against  
predators that crouch in the undergrowth

**[17:19] Miz**

and attack their prey from there.

**[17:22] Miz**

Shimoda-kun, crouch down there!

**[17:25] Shi**

A-All right!

**[17:26] Tsu**

Venus-kun, put these on.

**[17:29] Tsu**

Those are glasses that  
let you see like a lion.

**[17:33] Shi**

How is it? Am I hidden?

**[17:35] Kan**

You're highly visible.

**[17:37] Kim**

Maybe we need to move around?

**[17:39] Kna**

Somehow, you're even more visible.

**[17:41] Kna**

It's like, do these guys  
not value their lives?

**[17:45] Ued**

What are you all doing?

**[17:47] Mei**

The client put in an order that said  
"make more stripey animals."

**[17:52] (Flashback) Tsu**

All right! Let's make a horse,  
a stripey horse!

**[17:55] Mei**

That's why we're all thinking about it.

**[17:57] Mei**

But we couldn't figure out any reasons  
to put stripes on a weak animal.

**[18:01] Una**

Here.

**[18:03] Una**

How about an animal that's  
cooled by the stripes?

**[18:08] Una**

When hit by the sun, the white parts and the  
black parts will have different temperatures.

**SIGN** Warm air rises

**[18:12] Una**

That will cause air to flow,  
which could help with cooling?

**SIGN** Temperature difference  
causes air flow

**[18:17] Kan**

Is that outfit making you cooler right now?

**[18:19] Una**

Not at all.

**[18:21] Shi**

Could it be that Neptune-san hasn't slept?

**[18:23] Mei**

He got an order from the client for  
"like a carnivore, but it's an herbivore."

**[18:27] Mei**

He hasn't slept for two days now.

**[18:29] Miz**

You don't have to force yourself  
to join this stripey business.

**[18:31] Una**

It's fine. It's a good distraction.

**[18:34] Una**

Maybe I should just make the animal  
I'm working on stripey, too.

**[18:39] Una**

That's it!

**[18:42] Una**

If I use the power of gut bacteria,

**[18:44] Una**

I can easily make a "carnivore" that  
can get nutrients from plants.

**[18:48] Una**

But since it won't have a lot  
of energy, it can't move very fast.

**[18:52] Una**

That's why I thought it should live in high  
altitudes where there are few enemies,

**[18:55] Una**

but it snows there.

**[18:58] Una**

It can't accumulate enough  
energy for hibernation...

**[19:00] Una**

Not to mention having enough reserves to  
grow in a winter coat fit for snow.

**[19:04] Una**

The way to resolve that is stripes,  
or black-and-white!

**SIGN** White for camouflage in the snow

**[19:08] Una**

White for blending into the snow!  
Black for blending in during the summer!

**SIGN** Black

for blending in during the summer

**SIGN** Panda

**[19:11] Una**

In other words, a multi-season fur coat!

**[19:14] Shi**

God has spoken!

**[19:16] God**

Accepted!

**SIGN** Accepted

**SIGN** Giant Panda

**[19:18] Ued**

I'm happy for you. It's cute  
how the eyes stand out.

**[19:23] Kim**

Doesn't this also fulfill the  
"striped weak animal" order?

**[19:27] Kim**

We're done.

**[19:29] Miz**

Chief, should we give up  
on the stripey horse?

**[19:31] Tus**

Hm...

**[19:33] Una**

Here. I'm glad forgoing sleep paid off.

**[19:36] Shi**

Thank you.

**[19:39] Shi**

Send!

**[19:40] Kim**

Neptune-san, you're amazing.

**[19:43] Una**

Oh, it wasn't so—

**[19:45] Kan**

What is it?

**[19:46] Una**

No, it just looks like this boy's...

**[19:52] Kan**

What's going on?

**[19:57] Shi**

Oh, no! Another design was stuck to it!

**[20:01] Shi**

It was for the starfish!

**[20:03] Kan**

Starfish?

**[20:04] Kan**

What are the characteristics of a starfish?!

**[20:06] Kim**

It doesn't have a brain.

**[20:07] Kim**

Instead, it has receptors  
on its feet for smelling,

**[20:10] Kim**

and when it has detected prey,  
it moves toward that smell.

**[20:14] Kim**

Incidentally, starfish are carnivores, too.

**[20:15] Kan**

No! It's coming this way!

**[20:18] Kim**

Ven-chan, you're scared so easily.

**[20:21] Kan**

You're just touching it?!

**[20:22] Kim**

It's fine.

**[20:27] Kan**

It's multiplying?!

**[20:29] Kim**

The base is a starfish, after all.

**[20:31] Shi**

When you try to catch them, their hair  
comes out, and they multiply even more!

**[20:34] Shi**

And they're scary!

**[20:37] Ued**

This isn't good. We have to do something.

**[20:41] Una**

It's because I didn't check properly.

**[20:43] Shi**

No, it's because I didn't check!

**[20:45] Miz**

What are we going to do with these?!

**[20:47] Kan**

It's all over!

**[20:50] All**

We're doomed!

**[20:53] Tsu**

You can relax!

**[20:56] Tsu**

These are tsetse flies,  
which transmit sleeping sickness.

**SIGN** Tsetse Fly

**[20:59] Tsu**

They sting areas that are uniform in color.

**[21:02] Tsu**

They should attack the pandas, since they  
have wider bands than your clothes.

**[21:06] Tsu**

Just stay put.

**[21:09] Shi**

Stay put?

**[21:12] Miz**

This is like a painting of Hell.

**SIGN** They fell asleep

**[21:24] Kan**

For a moment, I had lost hope.

**[21:27] Shi**

What a great idea to use tsetse flies.

**[21:31] Tsu**

Since we proved that it's less  
likely to be stung by flies,

**[21:34] Tsu**

can we give this horse a pass?

**[21:36] Shi**

*That was great, but the horse again?*

**[21:39] Shi**

God has spoken!

**[21:41] God**

Accepted!

**SIGN** Accepted

**SIGN** Zebra

**[21:43] Bothl**

Hooray!

**[21:45] Una**

I thought it wouldn't work  
on those mystery animals,

**[21:48] Una**

but they fell asleep quite easily.

**[21:50] Ued**

Oh, that's because I cursed them.

**[21:53] Ued**

C-Cursed? Are angels allowed to do that?

**[21:57] Ued**

Should I not have?

**[22:01] God**

Operational message!

**[22:03] Ued**

Ueda is going to Hell!

**SIGN** Expelled

**SIGN** Next on the Agenda
