

# MEMORIES MELODIES

(Hey! Girl! We are S, E, V, E, N...

Here we go!!!)

(Stand up! Hands up!!)

My heart is pounding and I can't stop it

My heart is Throbbing as I wake up

Encounters that seem like

coincidences are Alright

I can't allow there to be dissonance

An evolving GENERATION

You're not alone (Going...only dream)

Let's paint it all rainbow-colored Be a live!

(Burn up! Have a special live!!)

We want to shine brighter

with the future we grasp

Reckless (dreams and) days (together)

Hold them tight Higher step!

Even if I get hurt, I'll keep on walking

I want to tell you Melodies

Our destiny starts here (precious tune)

Our interconnected heartbeats

Oh, yeah let's run through the present

Don't stop, going now! Until the very end

I'll tell you the reason we were born

Wo-oh Feel it

To your heart... (Fuu!!)

Play your destiny (sweet tune)

The ultimate bond

Oh, yeah let's run through our dreams

Shake it, moving now! Wherever we go

We are S, E, V, E, N

We can make it, only dream

We remember distance days together with you

We are S, E, V, E, N

We can make it, only dream

We remember distance days,

Memories Melodies
