We look up at the sky  
And a rainbow brilliantly stretches beyond it  
Our stories are woven  
    together from this thrill  
The future keeps on expanding forever  
And it's truly endless  
The heartbeat of someone's  
    dream starts beating faster  
This baton that's overflowing with feelings  
Let's pass it on  
New (courage and) encounters and (harmonies)  
Are being created  
Let's go together  
That means you, too!!  
The wind of beginnings shines  
Towards the twinkling tomorrow  
Your (your) feelings (feelings)  
I just know they'll bloom  
You're never alone  
At any time  
I'll envision this with you forever  
The rainbow of dreams will  
always be in our hearts

And it connects us  
Oh, oh, oh... The light (let's follow it)  
Oh, oh... You (and us, let's move forward)  
Oh, oh, oh... Go for dream  
(As many times as it takes)

Our dreams, our dreams,  
let's chase after them!

Our encounters and dreams are ah, shining now  
The wind of beginnings shines

Towards the twinkling tomorrow  
Your (your) feelings (feelings)  
I just know they'll bloom  
You're never alone  
At any time  
I'll envision this with you forever  
The rainbow of dreams will  
always be in our hearts

And it connects us  
Oh, oh, oh... The light (let's follow it)  
Oh, oh... You (and us, let's move forward)  
Oh, oh, oh... Go for dream  
(As many times as it takes)

Our dreams, our dreams,  
let's chase after them!
